

# ICW ARMS & MONITORS

FOR EVERY TECHNOLOGY NEED,  
WE HAVE THE ANSWER

## TOTAL COMPUTING SOLUTIONS

Helping more than 1,200 offices be more productive since 1998.

How productive and efficient is your work environment? We have the solution for any size workspace!

Phillips Consulting provides ergonomic solutions for any business and offers the most extensive line of ICW products designed to solve the most challenging office layout. Machined out of billet aluminum, ICW arms are powder coated and anodized for a durable, lasting finish.

Whether you have selected a ceiling, wall or desk mount for a computer monitor or HDTV, our ICW products are designed to conceal equipment cables and cords and are ergonomically designed for safe and easy use.

Our consultants can design a workspace that will help eliminate back pain, neck and shoulder kinks, hand and wrist tingling and headaches and eyestrain. Many people do not realize that the way they are sitting can result in serious health problems. Simple ergonomic adjustments can work wonders. When people feel more comfortable, they are generally more productive as well.

### ICW Advantages:

- *Extendibility* - Mounting arms in the ICW family have the longest reach in the industry
- *Articulation* - Horizontal and vertical motion & tilt adjustment
- *Manageability of Cables* - Designed to conceal equipment cables and cords
- *Stowability* - Designed to stow a minimal distance from the mounting surface
- *Durability* - Arms and mounting systems are ruggedly designed and tested for commercial use
- *Reliability* - Proven by in-house testing and field experience, ICW products stand up to the rigors of repeated commercial use
